

# *EVOLUTIONISTS PLIGHT*

**THE MORE SCIENCE ADVANCES THE MORE THE EVOLUTIONISTS FACE  
EMBARRASMENTS  
WE WILL DISCUSS TOP TEN EVOLUTION COLLISIONS WITH SCIENCE**

# ACKNOWLEDGMENT

*CREATION MINISTRIES INTERNATIONAL ([CMI](#)), GENESIS APOLOGETICS ([GA](#)), ANSWERS IN GENESIS ([AIG](#)), THE INSTITUTE FOR CREATION RESEARCH (ICR) ([WWW.ICR.ORG](http://WWW.ICR.ORG)), CREATION MINISTRIES INTERNATIONAL ([CMI](#)), AND CREATION SCIENCE EVANGELISM ([CSE](#)), AND CREATION EVIDENCE MUSEUM OF TEXAS ([CEMOT](#)), MUCH OF THE CONTENT HEREIN HAS BEEN DRAWN FROM (AND IS MEANT TO BE IN ALIGNMENT WITH) THESE BIBLICAL CREATION MINISTRIES. I'VE ASKED THEM BY PHONE ABOUT USING THEIR PUBLISHED MATERIAL AND THEY WERE GRACIOUS ENOUGH TO GRANT IT TO ME FOR THE EDUCATION PURPOSE AND NOT FOR MAKING MONEY. IN TURN, ANYONE CAN USE THIS MATERIAL HERE WITHIN FOR EDUCATION PURPOSE ONLY.*

*MUCH OF THE CONTENT HEREIN HAS BEEN DRAWN FROM (AND IS MEANT TO BE IN ALIGNMENT WITH) THESE BIBLICAL CREATION MINISTRIES. I'VE ASKED THEM BY PHONE ABOUT USING THEIR PUBLISHED MATERIAL AND THEY WERE GRACIOUS ENOUGH TO GRANT IT TO ME FOR THE EDUCATION PURPOSE AND NOT FOR MAKING MONEY. IN TURN, ANYONE CAN USE THIS MATERIAL HERE WITHIN FOR EDUCATION PURPOSE ONLY.*

*MY DEEP GRATITUDE ALSO TO MANY DEAR FRIENDS FOR THEIR INVALUABLE ADVICE AND ENCOURAGEMENT WHO PREFERRED TO BE ANONYMOUS.*

*AT LAST BUT NOT LEAST I AM GRATEFUL TO MY DAUGHTER IRINA ISHAK FOR HER EDITING MUCH OF MY WRITING TO MAKE IT READABLE.*

# *APOLOGETICS PRESENTATION SERIES*

This is the sixth presentation in the Apologetics presentation series. The purpose of this series is **to prepare our kids and youth and everyone to survive the vicious attacks on Christianity and God** in all the education and media system. We will post a new presentation every 2-3 weeks. Look for subjects as:

Did Science Kill God? (posted)  
 Where are we Heading (posted)  
 Big Bang or smoke screen (posted)  
 Creation antagonists witness (posted)  
 Evolution or delusion (posted)  
 Evolutionists Plight (current)  
 It is Young World After all  
 Lies into Facts – Grand Canyon  
 Reclaiming Culture  
 Satanic Aluminate – Doctrine that Damned America  
 Scientific facts in The Bible  
 Six days Creation  
 The Trojan of Deep Time

Iron Clad Evidence  
 Humanoid- Myth or Truth  
 The Incredible Design of the Human Body  
 The Amazing Created Human Brain (current)  
 The Amazing Created Human Heart  
 The Amazing Created Human Respiratory System  
 The Amazing Created Human Digestive System  
 The Amazing Created Human DNA  
 The Amazing Created Human Ear  
 The Amazing Created Human Eye  
 The Amazing Created Human Reproduction Process  
 Intelligent Design  
 A Scientific Dissent from Darwinism

# *WHY THIS SERIES?*

The purpose of this series is to **teach Apologetics** to our people. It is very important that we equip our self by the right information about the **existence of God & the authenticity and infallibility of His book** all with **evidence from science**. This kind of education has never been **so badly needed** as it is now **for our kids and youth to survive the vicious attacks on the Bible and God** in all walks of life, be it school system, media, press, books, museums, colleges, social, entertainment, ...etc. This vicious attack, although as old as creation itself, it increased during the enlightenment age but **it sky-rocketed since the 1970's**. The root cause of all this attacks **unquestionably is the evolution theory** which replaced the godly creation by godless one and therefor there is no need for a God with all the moral and legal responsibility to submit to His authority and commands and not living sinful life.

This series will have sections **refuting evolution** be it cosmic, chemical, astronomical, organic, and biological. Other sections **discussing all-or-nothing complex systems that are impossible to explain through bit-by-bit random evolutionary processes as incredible examples of God's handiwork in His creation**.

This current presentation **discusses few of the narratives when evolutionists have no good defense and/or otherwise embarrassed**. Regretfully they **locked themselves in a box called "reduction"**. Everything, they believe, is reducible to material. **Ironically, that is exactly the underpinning of all ancient pagan (and modern) gods** like Mars, Diana, Neptune, wealth, beauty, lust,..etc. Borrowing from Professor Dr. John Lenox, pure mathematics professor at Oxford, they admit a word like "roast" has a meaning/intelligence is not material however the DNA which contains 3.5 Billion letters documenting the databank of a unique human is for them meaningless material and didn't come from ingenious designer, for them it is just chemistry. Who do you think designed, created, and maintains it, a blind watchmaker? Or an omniscient ingenious architect: Jesus Christ who deserves all glory and praise.

# *DID YOU HEAR THIS ONE*

# *EMBARRASSMENT #10*

## *DESCENDENT OF APES*

You gotta believe in the Big Bang and its ability to form the universe, the stars, and ultimately life itself despite increasing rejection by knowledgeable scholars  
You gotta believe you can trace your family tree back through the apes... →

thru fish→

Thru worms→

Evolutionist has to support the unsupportable:

- Everything is out of nothing.
- Life out of rocks.
- Genius out of scum.
- DNA out of chaos.
- Perfections out of errors.
- Intelligence out of zilch.
- Amoeba out of mud.
- From the Gu to you via the Zoo!
- "PTO"

# *EMBARRASSMENT #10 COMING FROM SCUM<sup>7</sup>*

Thru  
pond  
scum →

Thru  
rocks →

All the way  
back to →

- 30+ complex elements out of Hydrogen.
- Minimum 200 Complex proteins each formed of 20-1000's amino acids out of scum (chance to form one protein by itself is less than 1 in  $10^{41,000}$ , that is if the amino acids are were available on the shelve).
- Death brought man not man brought death.
- Garden of Eden was on top of cemetery of millions of years of death.
- Jesus was crucified in vain.

## A Scientific Dissent From Darwinism

“We are skeptical of claims for the ability of **random mutation** and **natural selection** to account for the complexity of life. Careful examination of the evidence for Darwinian theory should be encouraged.”

Cover Page

## ***EMBARRASSMENT #9 BIG BANG DELUSION***

You gotta believe stars formed by the gravitational attraction of space gas particles. See *Science News*, 3-11-06 p. 154-156. The known laws of physics and chemistry say that the more gravity tries to squeeze gas particles together, the more **HEAT** will be generated (like a diesel engine). This extra heat causes **EXPANSION** of the particles **OUTWARD**, not inward.....and the **outward force is much stronger** (400 times!) than any attraction force. So they have an unrealistic mechanism.

Nothing **exploded by itself** and **formed the whole universe**.

Something you expect to hear from a person under the influence.

Pressure X Volume / Temperature = C

# *EMBARRASSMENT #9 NONE SAW STAR BIRTH BUT MANY DEATHS*

## What about star formation??

(1) Astronomers estimate there are 100 billion galaxies

(2) They estimate there are 200 billion stars per galaxy...

(3) Astronomers claim the universe is 20 billion years old ( $6.3 \times 10^{17}$  seconds)

The math...

100 billion galaxies times 200 billion stars each =  $2 \times 10^{22}$ . Dividing by  $6.3 \times 10^{17}$  seconds =  $3.1746 \times 10^4$

or **31,746 stars per second** would have to have formed every second for 20 billion years!! The point...

We have never seen even one star form, but we have seen them die. "He made the stars also." Genesis 1:16

notes from Mike Riddle, ICR

It is estimated a star dies every 26 years. We see about 240 dead stars which fits nicely with 6000 years old universe.

# EMBARRASSMENT #8

## LANGUAGE REGRESS

Instead of evolving..... language **devolves**. If man evolved from less intelligent creatures, we would expect the earliest languages to be the least complex. The **exact opposite** is true.

Early languages are much **more complex** in verb usage & syntax. For example, ancient Greek & ancient Chinese are much more complex than their modern counterparts. Ancient Sanskrit goes back to 1500 BC and **each verb** had up to 500 variations!

Everything devolves not evolves, **third thermodynamic law** observation: The entropy of a system approaches a constant value as its temperature approaches absolute zero. In English it means the **useful energy in a closed system decreases with the time**. The same paradigm applies to virtually everything, e.g., houses, cars, our body, even our DNA. Which means **everything is deteriorating not improving; its quality decreases with the time**.

Su at 1----- at 20 ----- at 80 ---- at 1000

# EMBARRASSMENT #8 *LANGUAGE* *REGRESS*

The Flood in Chinese writing?

**boat +**

**eight**

**people**

**large ship = boat + 8  
people**

An amazing evidence that Noah flood record in the Book of Genesis is imprinted on the culture. Also the fact there are more than 200 folks' legends of global flood.

Please click on the box above to watch video from [creation.com](http://creation.com)

# *EMBARRASSMENT #7 ABUNDANT DESIGN*

DESIGN: It's everywhere.....A few examples: just the right amount of gravity on earth, a sun that is gigantic but a controlled source of light and heat, the magnetic field, Van Allen radiation belts and ozone layer to protect life, liquid water which is the basis of every system,

underground aquifers, capillary action of plants, medicinal plants: digitalis, yew, Aloe, penicillin mold

Anthropic Principle is some three dozen conditions without any of them life is impossible. These conditions are in form of very precise values of different nature's constants each of which has astronomically small tolerance range. These razor-sharp tolerances lead to estimate the chance a planet to be life supporting like the earth is 1 in  $10^{282}$ . Compare this to the estimated number of particles in the whole seen universe is just  $10^{80}$ . Is this from the blind watch maker or ingenious architect?

# EMBARRASSMENT #7 ABUNDANT ARRANGEMENT

23

## DESIGN in plants

"...and the fruit tree that yields fruit according to its kind, whose seed is in itself..." Gen. 1:12

Photosynthesis  
from dirt, water, &  
sunlight

Just think about something simple like chlorophyll photosynthesis in the plant green leaves which is taken for granted. It takes the carbon dioxide which humans and animals produce as exhale and produces Oxygen which human and animals inhale. Without this the carbon dioxide will keep increasing and the Oxygen decreasing to the extent that life extinct on the earth. Add to this the process produces the major food source for energy: Carbohydrate.

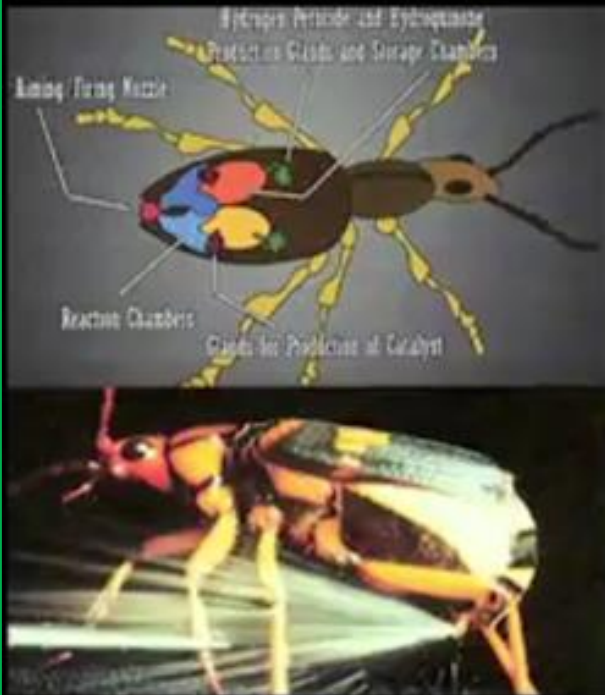

By the way, God created the plants on the third day before creating the animals and sea life on the following days to sustain the Oxygen, just quick creation nugget.

Measure on this hundreds of different natural processes.

# EMBARRASSMENT #7 ABUNDANT SYSTEMS

24

Bombardier Beetle design- two chambers in his body, one for Hydrogen Peroxide and the second one for Hydro-Quinone, along with catalyst and inhibitor, reaction chambers, & aiming and firing nozzle.

Given the explosive nature of these chemicals as well as the complicated sequence of events of their use, how can evolution maintain that this is a product of random chemical accidents? If this was the true path then Bombardier beetles would have blown themselves up many

times and never passed their expertise on to the next generation of beetles.

An **honest** scientist or lay person would likely say this is more likely the result of a good design by a masterful Designer!

The ingenious design even of the simplest organism is always mind boggling and very abundant and will be handled in future researches. This flies in the face of random mutations and natural selection lead by heartless, un-consciousnesses, mindless, emotionless blind watchmaker.

Also consider Symbioses: Around the world, we find countless sets of creatures and plants that cannot exist and/or reproduce without the other, thus invalidating the theory that these organisms developed separately over millions of years.

Examples:

- Clown fish and sea anemones.
- Yucca plants and yucca moths.
- Termites and their parasites.

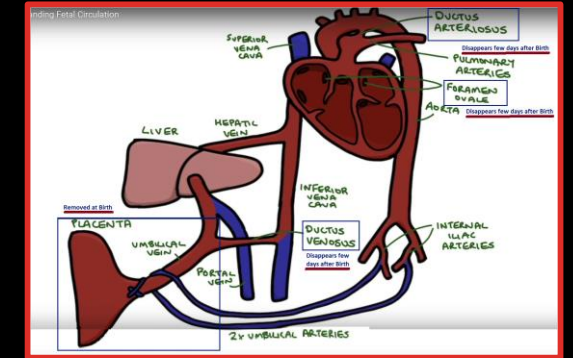

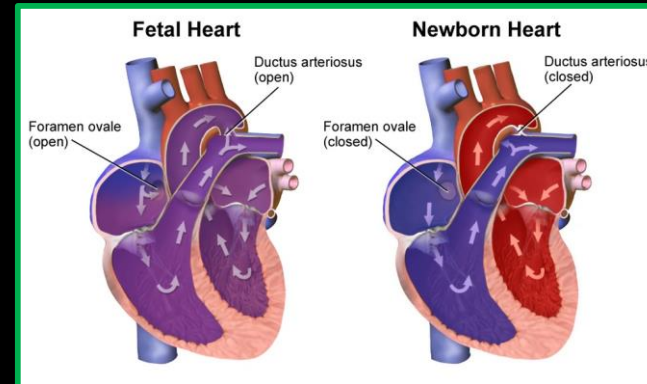

# EMBARRASSMENT #7 ABUNDANT SOPHISTICATION

25

Dolphin sonar, electric eels, water squirting archer fish, angler fish who go fishing with a lighted lure, bacteria that consumes toxic waste, whales that can dive down .7 mile deep, camels which can go 3 months without water, turtle shells, hollow hair of polar bears, changeable color of chameleons, giraffe's blood pressure controls, organization of herds, packs, families, nest weaving birds, beaver dams, honey combs

Humans: fingerprints, eyes: 130 million light-sensitive rods & cones on the retina, automatic aiming, auto focus, automatic maintenance, blood clotting process, taste, smell, sight, hearing, touch, sexual reproduction, DNA, human brain: conscious thoughts, music, language, etc.

Design always points to a designer

Living creatures exhibit many sophisticated features can't be explained by senseless and blind evolution.

For instance, the **circulatory system of a baby before & after birth**: As fetal the lungs are not working yet, the Oxygen comes from mama. Therefore the blood bypasses the lungs (except just enough for lungs growth) by two temporary shunts; 1) Duct between the two atriums; Foramen Ovale & 2) Duct between the Pulmonary artery and the aorta; Ductus Arteriosus. 3) Also because the fetal nourishment comes through the umbilical cord from the mother, the liver is also bypassed by a third shunt; Ductus Venosus, connects the umbilical vein to the inferior vena cava. Once the baby is born the Umbilical cord is cut & the shunts disappear within days. Can this be envisioned by a blind heartless watch maker or ingenious Architect who deserves all praise and glory?

# EMBARRASSMENT #6 MISSING LINKS

29

**Fossils:** The fossil record is a 'hostile witness' for evolution. The absence of transitional forms is an **embarrassment** to evolutionists.

If evolution were true, the fossil record should be **mostly transitional forms** rather than the 'terminal' forms.

"The extreme rarity of transitional forms in the fossil record is the trade secret of Paleontologists"- Prof.

Stephen J. Gould, Harvard U. dept of Paleontology

"Evolution requires transitional forms and Paleontology **does not** provide them." Dr. David Kitts, O.U.

Darwin himself stated that **two items would demolish his theory** (it does not even qualify as hypothesis ☺):

1. **Lack of transitional fossils:** he was hoping that just give it time and his followers will find plenty. Well, 160 years passed and millions over **millions of new fossils were found but never transitional fossils.**
2. **Irreducible complexity:** in Darwin days the idea of the cell which is the building block of any organism, was thought to be just a blub of ectoplasm. With the advent of the optical microscopes and electron microscopes **it turned out a cell is a whole world of itself of tens if not hundreds of interdependent system. The absence of any of these systems would ruin the cell.** Practically every creature is an irreducible complexity composed of countless irreducible complexity systems.

Lucy: Human Ancestor or Extinct Ape?  
Public School Version

Please click on Lucy to watch video from debunkevolution.com

Is Lucy the Australopithecine an Ape-to-Human Transition, wishful thinking ☺

100% bird

Darwin said he didn't have much evidence for his theory but to wait 100 years & the fossil record would prove him right. It hasn't.

No repbirds found

True science is always Biblical

100% reptile

microevolution

**"We have sought to impose a pattern that we hoped to find on a world that does not really display it."**

Prof. Stephen J. Gould, Harvard Univ. Geologist, Paleontologist

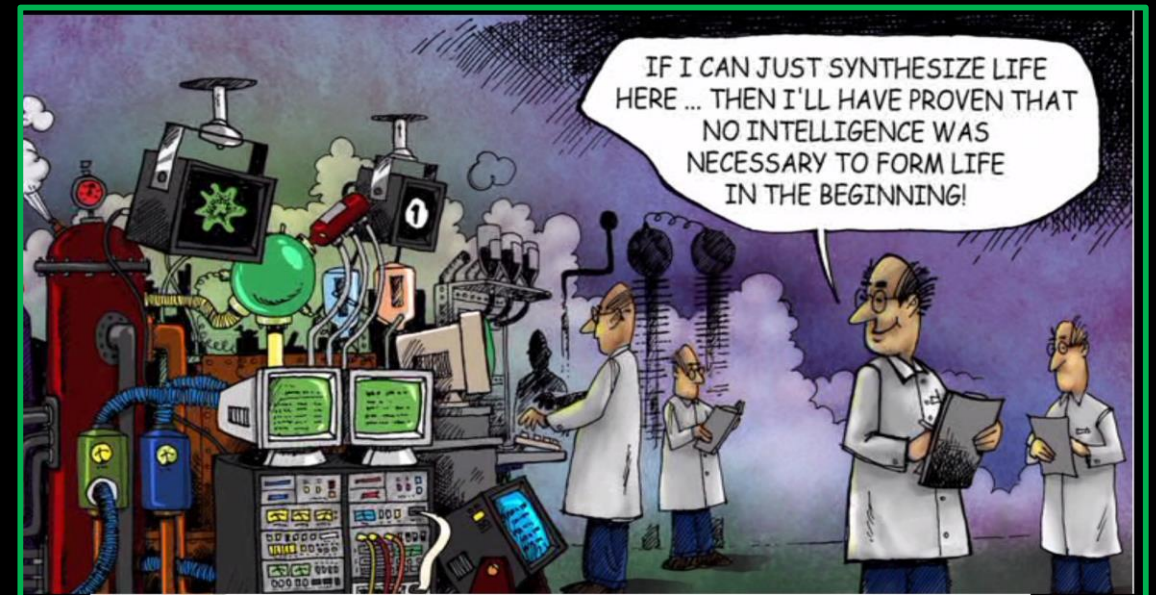

# EMBARRASSMENT #5 SPONTANEOUS LIFE GENERATION

You gotta believe in *spontaneous generation*: the idea that non-living chemicals just 'sprang' to life in some ancient little pond. How likely is it that DNA, RNA, amino acids, proteins, etc. just formed on their own? (An inverted fantasy)

"Instead of revealing a multitude of transitional forms through which the evolution of the cell might have occurred, molecular biology has served only to emphasize the enormity of the gap."  
Dr. Michael Denton, *Evolution: a Theory in Crisis*, p.249

In reality, chemistry is not our ancestor, it's our problem because At death, CHEMISTRY begins to *break down* that organism into SIMPLER compounds, not reassemble those elements and create life again!

**It's time for scientists to leave 19<sup>th</sup> century thinking and move into 21<sup>st</sup> century REALITY**

# EMBARRASSMENT # 4

## DINOSAUR SOFT TISSUES

Soft tissue in dinosaur bones (& other animals) keeps showing up!

For soft tissue to stay soft and pliable for millions of years is impossible and the evolutionists know it.

Decay should have set in centuries ago. There is no way it should have lasted 65 million years!

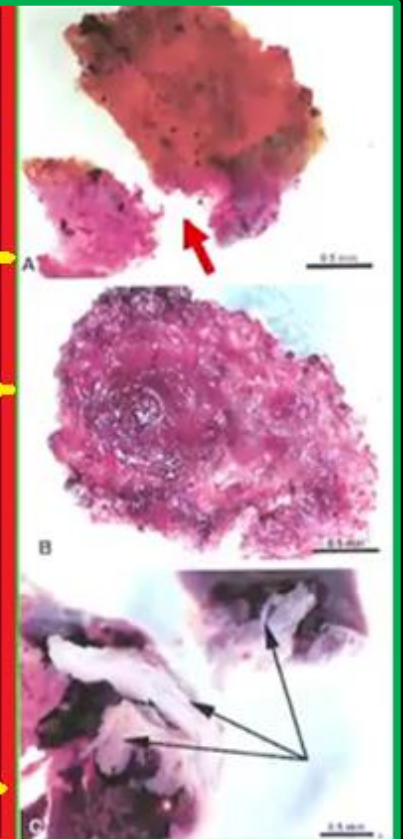

They have to constantly change their story rather than question evolution itself

Today's Science, April 2005  
**"Lucky Break: T-Rex Bone Yields Soft Tissue"**  
 T-Rex tissue is flexible and returns to its original shape after being stretched (red arrow)

Tissue from T-Rex femur after being air-dried

*"I'm quite aware after according to conventional wisdom & models of fossilization these structures aren't supposed to be there but there they are. I was pretty shocked."*  
 Scientist M Schweitzer via Montana State U News Service 3-24-2005

Fibrous demineralized bone (arrows)

# EMBARRASSMENT # 4 T-REX

Montana T-Rex remains reveal blood vessel you could stretch: *"tissues were soft and transparent and could be manipulated"* - CNN web, 3-24-2005

*"pretty exciting stuff"* - curator, Smithsonian Museum of Natural history, CNN web, 3-24-2005

*"...may lead scientists to re-examine their theories of fossilization."* NY Times web, 3-28-2005

Deputy editor of science magazine: "...soft tissues are rare in older finds ,,,,,, that's why in a seventy million year old fossil it is so interesting." CNN web, 3-24-2005

## Creationist Viewpoint

Instead of questioning their evolutionary thinking, they are trying to figure out a way for fossilization to preserve soft tissues for 70 million years.

### Schweitzer's Dangerous Discovery

When this shy paleontologist found soft, fresh-looking tissue inside a *T. rex* femur, she erased a line between past and present. Then all hell broke loose

By DANIEL KRENN  
PHOTOGRAPH BY EDDIE ANGELES

Discover magazine April 2006

Ever since Mary Hight Schweitzer peeked inside the fractured thighbone of a *Tyrannosaurus rex*, the intrepid scientist's life hasn't been the same. Instead, she's the field of paleontology.

Two years ago,

through a microscope, North Carolina State reveals tissue that for long fossilized bones, she thought she saw skin, what appeared soft, thin, and transparent.

By all the rules of fossils, it should have been the last of faith among scientists. But Schweitzer's discovery has led to a new era of paleontology.

She just took and made, following her scientific instincts. That has allowed her to see things other paleontologists have missed—and potentially to shatter fundamental assumptions about how much we can learn from the past. If biological tissue can last through the fossilization process, it could

"I had one reviewer tell me that he didn't care what the data said, he knew that what I was finding wasn't possible. I wrote back and said 'Well what data would convince you?' And he said 'None'."

For Schweitzer, the discovery that tissue hasn't been around for millions of years is still at all. But were mostly fossilized under catastrophic conditions a few thousand years ago at most.

Whether the idea has put Schweitzer at the center of a raging cultural contro-

"I had one reviewer tell me that he didn't care what the data said, he knew that what I was finding wasn't possible. I wrote back and said 'Well what data would convince you?' And he said 'None'."

"...translucent blood vessels...by all the rules of Paleontology **should** have long since drained from the bones. It's a matter of **faith** among scientists that soft tissue can survive at most for a few tens of thousands of years, not the 65 million since T.rex walked what is now the Hell Creek Formation in Montana".

# EMBARRASSMENT # 4 DINOSAUR CARCASSES

Recently evolution scientists (evos) have confessed to soft tissues in other animal fossils they have found, such as: **10 Mya Frog marrow** [www.bonemarrow.com](http://www.bonemarrow.com) Polar and brown bear genomes reveal ancient admixture and demographic footprints of past climate change

[Santanaraptor muscle tissue](#)

[300 Kya mammoth connective tissue fossil](#)

[Neanderthal DNA](#)

, etc. and the list keeps growing.

Why does it matter? Biochemical kinetic **laws** say proteins **can't last** even **40 Kya**. Evos **ignore** science **laws** and just say "Schweitzer's work is just showing us we **really don't understand decay**. There's lots of really basic stuff in nature that people **just make assumptions** about."

"So which should we trust?... The known **laws** of science or the "**assumptions**" evos "**just make**".... So they can keep believing in Darwin?- Dr. Charles Jackson

# BLOOD & SOFT TISSUES REPORTS

Organic material under best preserving conditions may survive few thousand year. Will we believe they can survive hundreds of millions of years unpreserved and subject to all disintegrating factors? These dinosaurs were created the same day human was created and they lived together and survived the worldwide flood on the Ark. After the flood some of them became carnivorous and human got rid of them for protection. The rest were extinct due to drastic environment changes.

# BLOOD & SOFT TISSUES REPORTS

They were mentioned in many Bible verses mentioning dragons and huge strong animals such as: 7. Job 41:1-11, 4. Ezekiel 32:1-2 "..., yet you are like the big dragon in the seas. ..", 3. Job 40:15-24, 4. Ezekiel 32:1-2, 5. Ezekiel 29:2-3, 6. Isaiah 51:8-9, 8. Isaiah 27:1, "...Leviathan the fleeing serpent..", 9. Psalm 104:24-26, 10. Psalm 74:12-15. Most certainly these verses were inspired to prophets familiar with these creatures. Christian traditions mentioned them so do countless different folks legends. Besides, we have fossils of human and dinosaur's footprint together.

### Selection of Published Reports of Original Soft Tissue Fossils

Papers that were excluded from the list include those with dubious verbiage, especially those that discussed "soft tissues" but failed to specify whether or not the tissues were original or chemically altered to a more resistant material. Those papers that specified the latter were also excluded, to the best of the author's ability to discern. The chart demonstrates that a multitude of verified original soft tissue and biochemical "clocks" have set maximum ages of thousands of years to samples that had all been assigned ages of millions of years.

# EMBARRASSMENT #3 HUMAN MATED WITH CHIMPS

**Study shows messy human, chimp split**  
DNA researchers say two groups parted, came back together  
By NORTON CAPRON  
Associated Press

NEW YORK — One of the most debated speculations in the world of human and chimp DNA, that the two species were a long, messy affair that may even have featured an unusual evolutionary version of "hookup sex," has been confirmed by a new study.

Previous genetic research has shown that chimpanzees and humans are closer species, having split off from a common ancestor about 1 million years ago. The new study goes further by looking at approximately 600 genes across the

DNA LNJ 6/06

From Page 1A

The researchers found that the two groups of HET and LUT split off from a common ancestor about 10 million years ago. Then, after evolving in different directions for about 4 million years, they got back together again for a brief fling.

The work has inspired scientists and the public alike. Many paleoanthropologists have a hard time believing that some of the fossil hominids that are known to have lived during that era could have been passing up with apes.

"It's a fairly cool and extremely clear analysis," said David Lieberman, a professor of biological anthropology at Harvard who wasn't involved in the study. "My problem is imagining when it would be like to have a bipedal hominid and a chimpanzee viewing each other as appropriate mates — not to put it too crudely."

But studies that compared human and chimp DNA could only average the differences between a limited number of spots in their genetic codes to come up with a single date for the split, rather than a span of years. The genius of the new study is that it breaks the

"Humans and chimpanzees first split up about 10 million years ago. ....

Then, after evolving in different directions for about 4 million years...

They got back together again for a brief fling....

That produced a third, hybrid population with characteristics of both lines."

## Reason # 3

Evolutionists believe that humans evolved from chimps..... then 4 million years later..... started mating together with chimps..... Yyuuuck!!!!!!!!!!!!!!

- Evolutionists dig their heels in the ground, their decision is already made and set in concrete against all glaring evidence.
- Fossilized or partially fossilized bones and even blood and soft tissues: No problem, we just misunderstand fossilization.
- $^{14}\text{C}$  in fossils, coal, and even diamonds: So what, they are contaminated.
- St Hellen Mountain volcano eruption 1982 and formation of 1:40 grand canyon in 3 days with 200 sedimentation layers: Still Grand canyon is millions of years old.
- Mitochondrial Eve lived just 6,000 years ago: So what, there were too many other women whose descendants were extinct.
- Same for Y-Chromosome Adam: See above.
- Results showing radiometric aging processes are erroneous and unreliable: Still we like them and rely on them and draw conclusions using them and disregard any results we don't like.
- ...ETC.

# *EMBARRASSMENT #3*

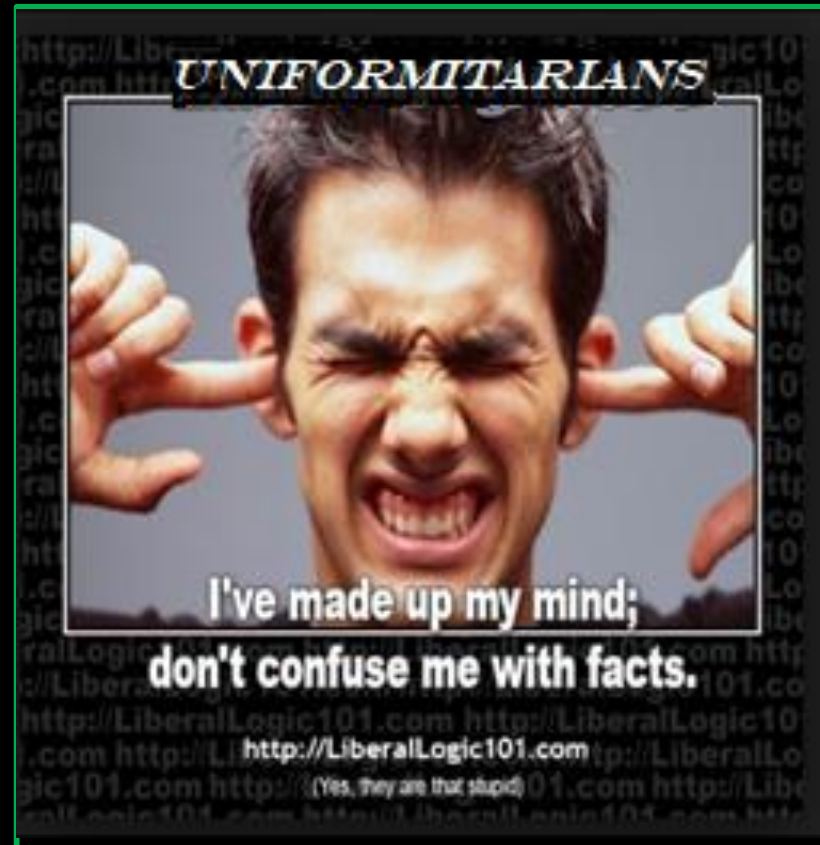

## *DISGUSTING*

Eric Lander, *Nature* online 5-17-06: "Something **very unusual** happened at the time of [chimp-to-human] speciation" said co-author David Reich.

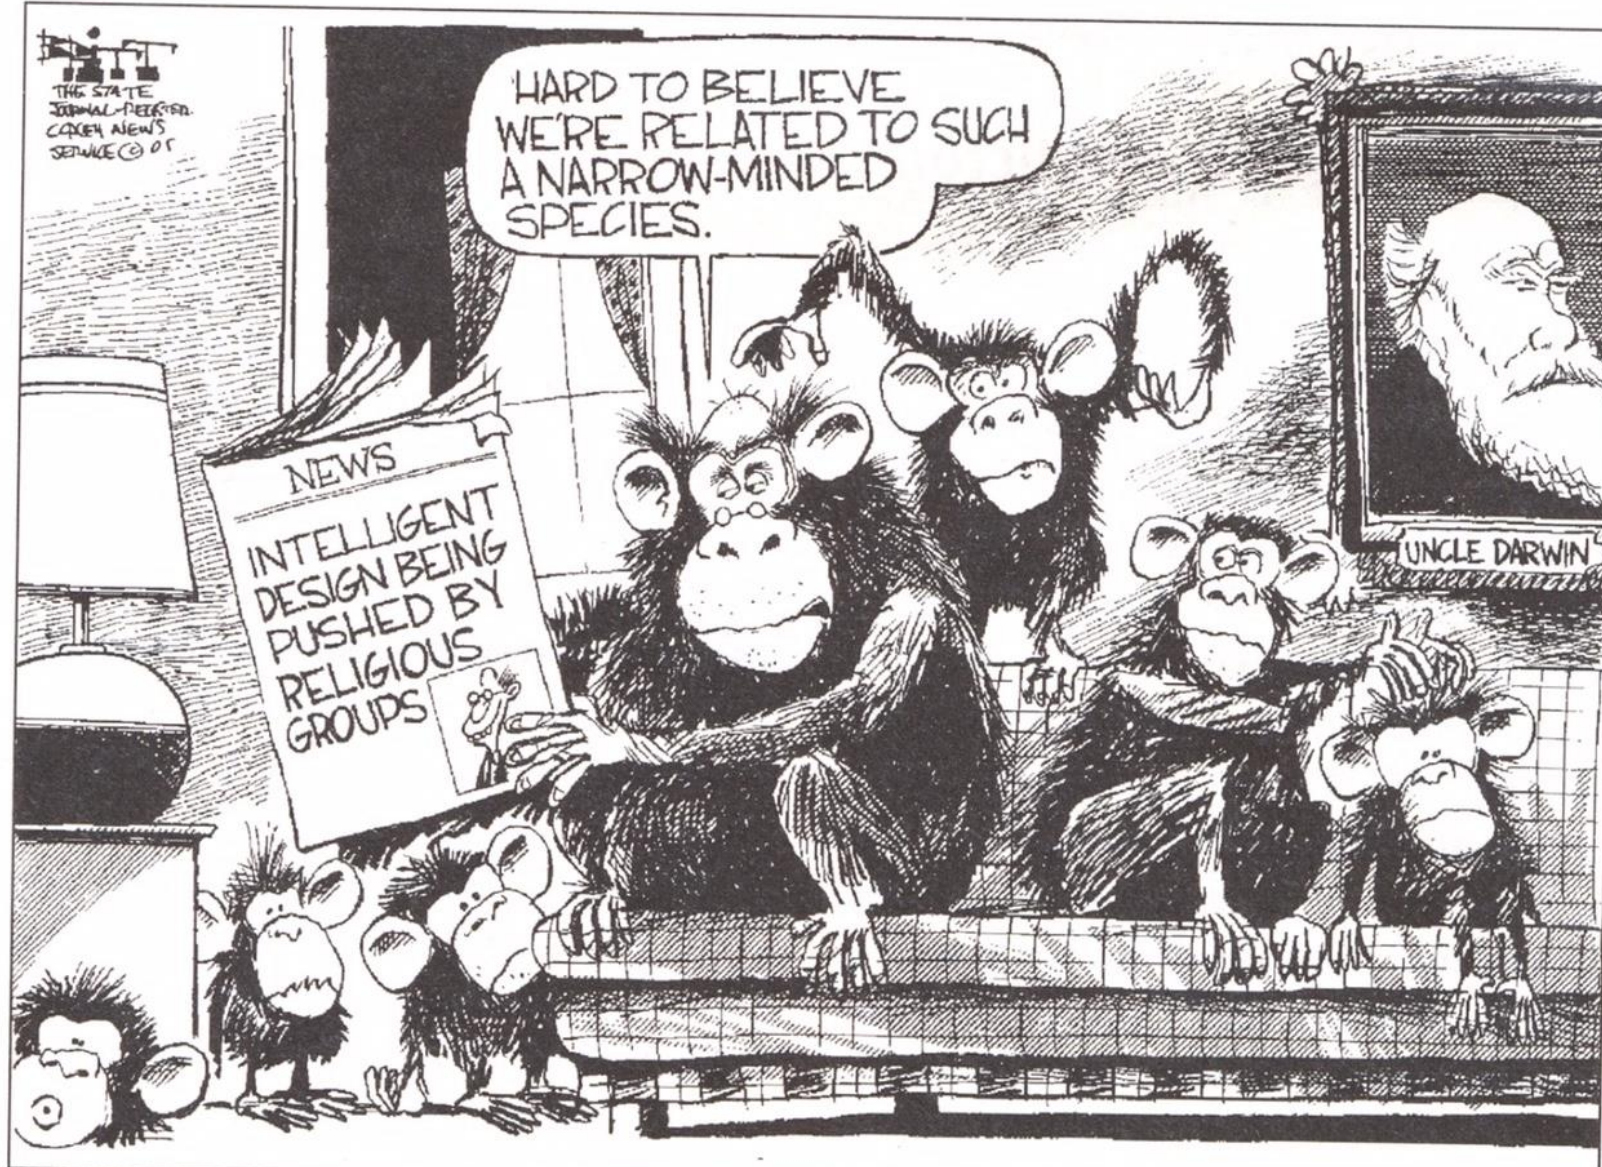

What's unusual? They say that people evolved from chimps.... then 4 million years later...started **mating together again**

Harvard evo-anthropologist Daniel Lieberman admits, "It's a **totally cool** analysis...my problem is **imagining** what it would be like to have a hominid and a chimp viewing each other as **appropriate mates**, not to put it too crudely."

Study: Chimps, Humans Mated

# *EMBARRASSMENT #2*

## *MUTATION*

### MUTATIONS.....(sigh)

For years, evos have said that mutations caused the random re-writing of the DNA code, and occasionally the mutation was 'beneficial' and then was 'naturally selected' and thus evolution occurred as one organism 'evolved' into a new kind.

(1) The term "beneficial" is highly subjective, i.e. mans' opinion. Are stunted wings beneficial?

(2) most mutations are neutral or lethal

(3) A mutation is a birth defect

(4) A mutation always results in a LOSS of information

(5) it's illogical to go downhill for a million steps then up for one step and then conclude life has an "upward urge".

- Early 1900's Fisher, Haldane, and Swell beneficiary mutations are very seldom, and slow & it could never be able to produce the world's genetic diversity even in eons of times.
- Steven Meyer found that for each  $10^{77}$  harmful and lethal mutation there may come just ONE beneficiary mutation, so clearly, we are devolving and not evolving.
- Researchers found that adaptation to changed environment conditions is very fast and purposeful, it may take just few generations.
- This lead Institute for Creation Research developed a bio-engineering model called "Continuous Environment Tracking (CET)" using adaptive control technology with organism biology. The research is headed by Dr. Randy J. Guliusza.

Ref.: Engineered Adaptability: Continuous Environmental Tracking Wrap-Up

# MUTATION IS BAD

42

Please click on the box above to watch video

# EMBARRASSMENT #2 DETERIORATION

In addition, we all have a “genetic load” of genetic mutations (copying errors) that is INCREASING with each generation.

Scientists know that just one additional mutation per generation would lead to **extinction** (not evolution of higher forms).

Current count of human gene disorders (like Alzheimer’s, sickle cell anemia, muscular dystrophy, etc.) is more than **13,000**. “DNA codes mutate at rates much higher than evolution would predict”- Dr. John Morris, ICR Impact 210

Forecast of Human Gene Disorders- Dr. Joseph Mastrapaolo

1960...1000	1990...5000	2020...60,000
1970...2000	2000...10,000	2030...100,000
1980...3500	2010...30,000	2085...extinct

“What I think the DNA material has done is show that intelligence must have been involved in getting these extraordinary diverse elements together.”

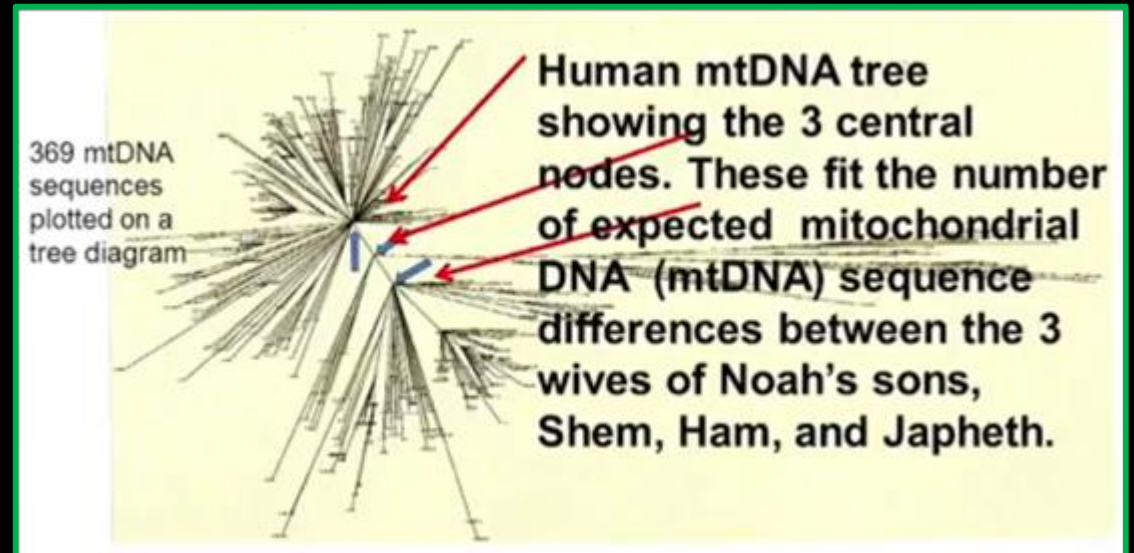

Prof. Antony Flew, quoted by Richard Ostling in  
“Leading Atheist Now Believes in God” Associated Press report, 12/9/2004

# REASON #1

## MITOCHONDRIAL DNA (mtDNA) CONVERGENCE

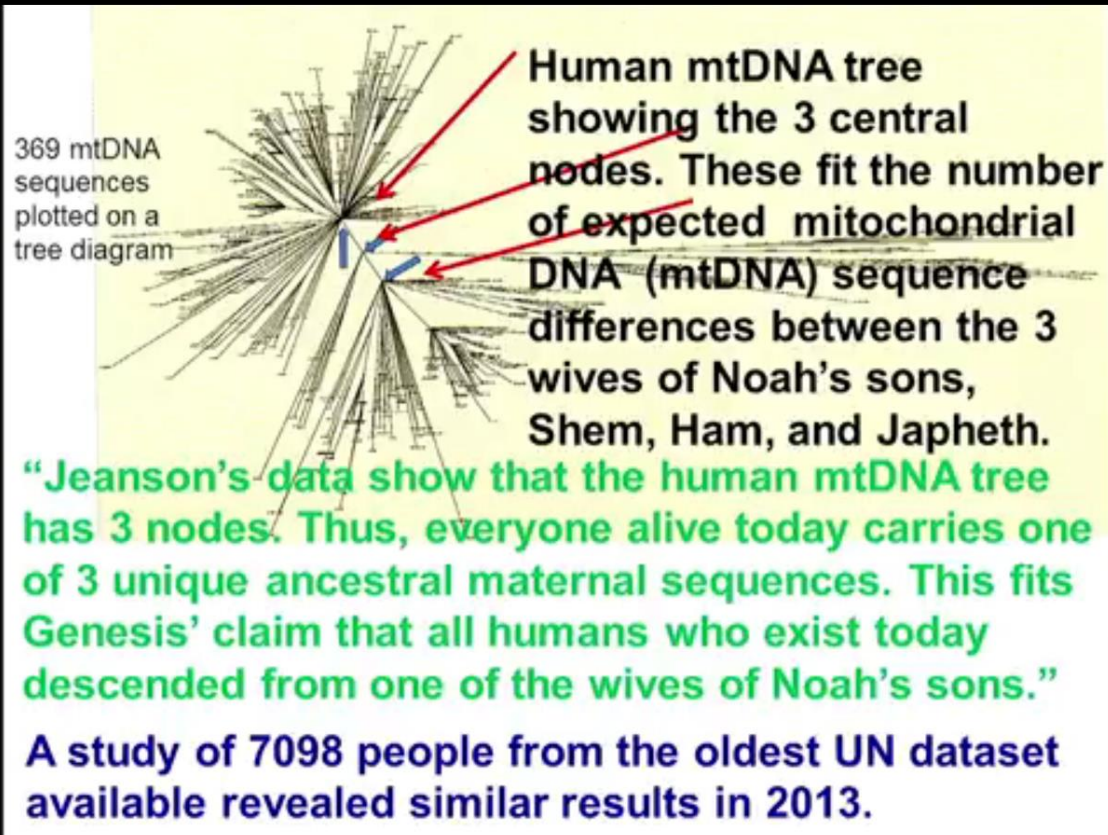

- 99.5% DNA in the nucleus, 0.5% is mtDNA, a separate piece of the cell. **This mtDNA is from mothers only.** This is known since 1998.
- 1998 Researchers found **all came from a single woman.**
- Researchers used **369 samples from diverse population females from several generation from the same families** and plotted **mtDNA sequence** on a tree as shown in the picture.
- **Remarkable consistency with the Biblical Genesis account:**
  - **Three nodes came from 3 Daughter-in-law of Noah,** only 8 pairs are different between them because they are the same generation.
  - **The nodes are about 4,000 years ago, roughly the flood time.**
  - **Further convergence of the 3 nodes would take about 1660 years which is exactly the time from Adam & Eve to the flood.**

Reference: [On the Origin of Human Mitochondrial DNA Differences](#)

N.B.: The fourth node is not a real node because it is @ 20 generation later. It is like a family split from the general population. Happened recently with a man called John Holland. He fell from May flower, was rescued, married one of May flower passenger, got 10 children and 80 grandchildren, the family increased so much that they formed kind of a mtDNA node.

# REASON #1 MITOCHONDRIAL EVE

**"In short, if all peoples descended from three genetically unique mothers, then (1) our mtDNA sequences should trace back to their three nodes. (2) Those nodes should have about eight differences between them. "**

**(3) Plus, a strict Biblical timeline suggest these mtDNA trends trace all of humanity back to Noah's sons' three wives – a "striking intersection of biblical history and modern genetics."**

Reference: [On the Origin of Human Mitochondrial DNA Differences](#)

# THOUGHTS & SUMMARY

- Evolutionists dig their heels in the ground, their decision is already made and set in concrete against all glaring evidence.
- Fossilized or partially fossilized bones and even blood and soft tissues: No problem, we just misunderstand fossilization.
- $^{14}\text{C}$  in fossils, coal, and even diamonds: So what, they are contaminated.
- St Hellen Mountain volcano eruption 1982 and formation of 1:40 grand canyon in 3 days with 200 sedimentation layers: Still Grand canyon is millions of years old.
- Mitochondrial Eve lived just 6,000 years ago: So what, there were too many other women whose descendants were extinct.
- Same for Y-Chromosome Adam: See above.
- Results showing radiometric aging processes are erroneous and unreliable: Still we like them and rely on them and draw conclusions using them and disregard any results we don't like.
- ...ETC.

Summary...

Just 10 of the reasons: *It's Tough Being an Evolutionist:*

- 10 Big Bang
- 9 Star formation
- 8 Language
- 7 Design
- 6 Fossils
- 5 Spontaneous generation
- 4 Soft dinosaur tissue
- 3 Chimp to→ Human to→ Chimp
- 2 Mutations
- 1 Human convergence (mtDNA)

Aren't you glad  
there is a much  
better  
explanation?

# SUMMARY

Of course, there are many more reasons to doubt evolution....

1. Explain how flight somehow evolved on at least 4 different occasions: birds, insects, mammals, and reptiles.
2. Explain how photosynthesis somehow 'evolved'.
3. Explain how cold-blooded animals turned into warm-blooded animals.
4. Explain how floating marine plants evolved into complex land plants with stems, roots, and leaf systems.
5. Explain how bottom-dwelling marine life ended up in high elevations and even on mountain tops.
6. Explain how egg-laying animals developed the ability to give live births.
7. Explain metamorphosis where some insects dissolve and then turn into a totally different type of creature (like a caterpillar into a butterfly).
8. Explain how mammals & reptiles crawled back to the sea and turned into whales, dolphins, seals, plesiosaurs, etc. The list goes on & on....

9. Explain which came first: the immune system..... Or .... The need for it?

10. Explain complex information sequencing, like the DNA code, WITHOUT intelligence.

11. How does evolution explain the emergence of sexual reproduction given that both male and female physiology would have to mutate and develop simultaneously?

12. "Bird-like" dinosaurs like Struthiomimus were "lizard-hipped" while bulky, low slung, and heavy dinosaurs like Ankylosaurus were "bird-hipped". How do Paleontologists who believe dinosaurs evolved into birds account for this unusual situation?

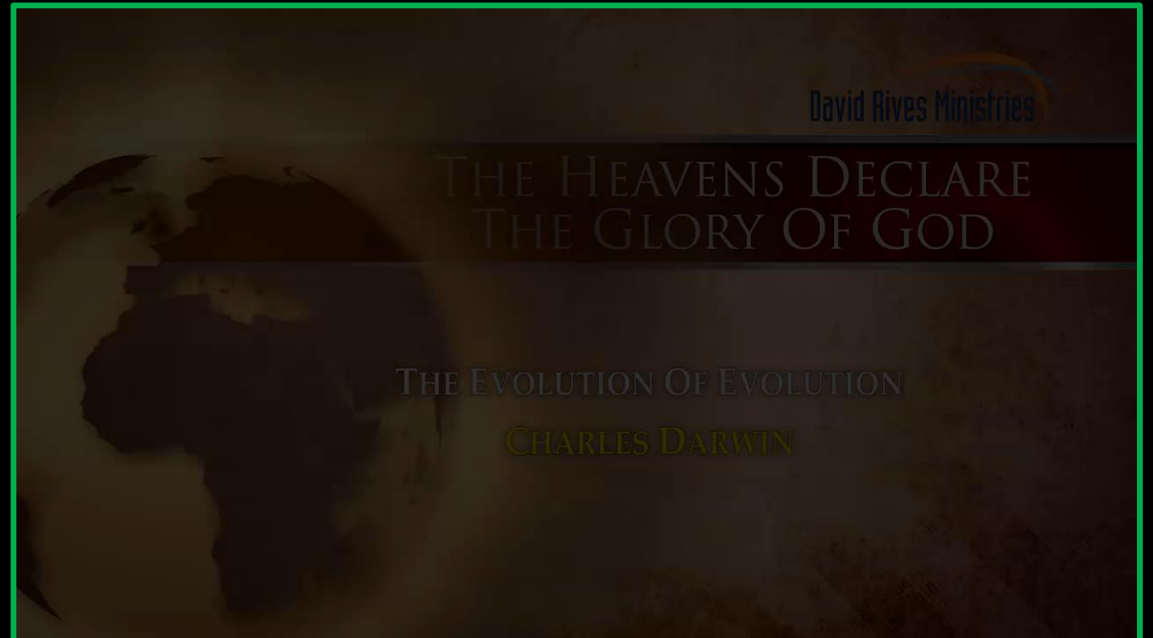

13. Does the retrograde motion of Pluto, Uranus, and Venus support or contradict the theory of solar system formation?

14. Nanotechnology: Molecular machines like truck (motor) proteins that drag vacuoles filled with lipids, left handed amino acids forming proteins, chaperone machines that help fold proteins for transport, etc.

# *EVOLUTION OF EVOLUTION*

Honey, I just don't think I  
can be an evolutionist  
anymore...it's just too hard  
to justify it anymore.  
Things really do look like  
they are designed..

# *CONCLUSION*

Conclusion, Quiz, and Graduation

# *CONCLUSION*

This presentation handled briefly ten of top reasons why the science, logic, observations, even top evolutionists statements are embarrassing for evolutionists. In nut shell:

10. Descendants of apes and monkeys which originally came out of rocks to slime to bacteria to works to.

9. An explosion in nothing caused by nothing created everything.

8. languages are regressing and not evolving

7. creatures as well as all nature and cosmos show very intelligent design which can't be as result of chance and chaos.

6. There are no any fossil showing any transition for any creature. Any claimed and even taught missing link is proven outright fraud like Lucy.

5. Spontaneous life generation from primordial soup of the rocks.

4. continuous discovering of millions-years old dinosaurs, like T-Rex.

# *CONCLUSION*

3. Making up unrealistic scenarios to defend disparately dying theory. Like humans mating with chimps.

2. Claim that mutation and natural selection led to evolution while scientifically proven that mutation leads to DNA destruction and extinction.

1. Mitochondrial DNA had proven the all humans are descendants of one woman lived 6000 ago years as the Bible precisely indicates

. Moreover the mtDNA tree shows clearly 3 nodes which fits perfectly the Bible account for Noah flood where the world was repopulated by the three Noah's daughters-in-law and their husbands.

Beside these 10 remarkable embarrassing facts the presentation lists non-exclusively another 14 facts.

# *QUIZ*

1. What is the evolutionist source and sequence of man evolution:
2. What is unrealistic about the big bang?
3. Do the languages evolve or digress? Give example of the Chinese pictorial shrift and Genesis book.
4. Can evolution explain the intricate design we see in all creatures and cosmos?
5. Are there any fossils showing transitions? Why Lucy is not missing link?
6. How life started according to evolution?
7. What did archeologists find in T-Rex (and others) bones that drastically refutes millions of years?
8. What is the weirdest scenario evolutionists claim happened to humans?

# *QUIZ*

9. Can mutation and natural selection lead to evolution? What will mutation ultimately lead to?
10. Explain briefly what is the mtDNA and what two ultimate facts it shows scientifically the absolute authority of the Bible?

# *HALLELUJAH*
